

1kg/ton

25kg

Some research finding

HepEXL[®] CONCENTRATE SPECIAL

- Silymarin is hepatoprotective and detoxifying agent, stimulate hepatic regeneration
- Andrographolides ameliorates inflammation of hepatocytes
- Inositol, Bile salts and lipotropic agents help to mobilise fat from liver
- Protein hydrolysates provide required amino acids for liver regeneration
- Pancreatin and enzymes helps in better digestion
- Cichorium intybus significantly improves GSH for better detoxification

Benefits

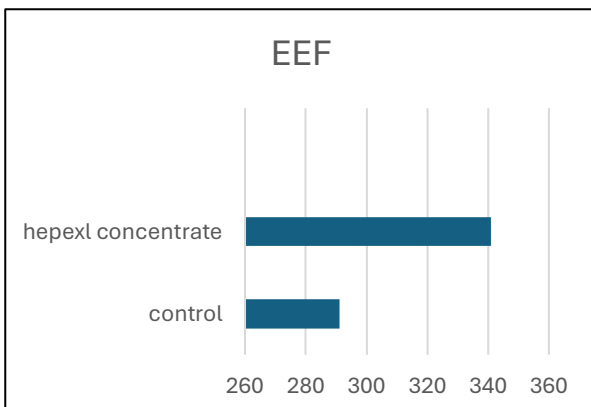

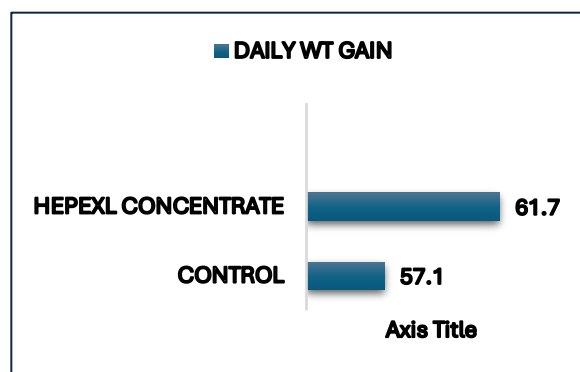

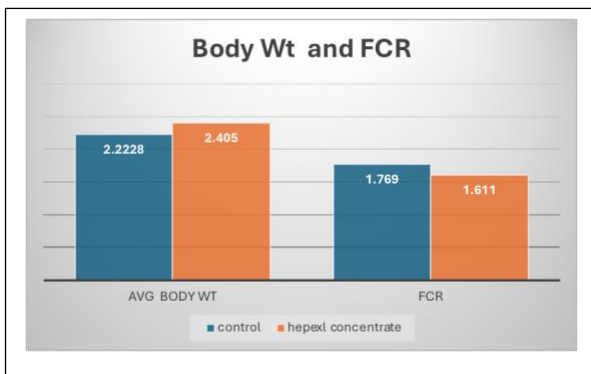

- Improves the body Wt and FCR
- Better laying performance
- Faster recovery
- Reduces toxicity

Dosage:

- Broiler : 250 g per ton
- Breeders : 500g ton

Packing: 25 kg

RECENT STUDIES:

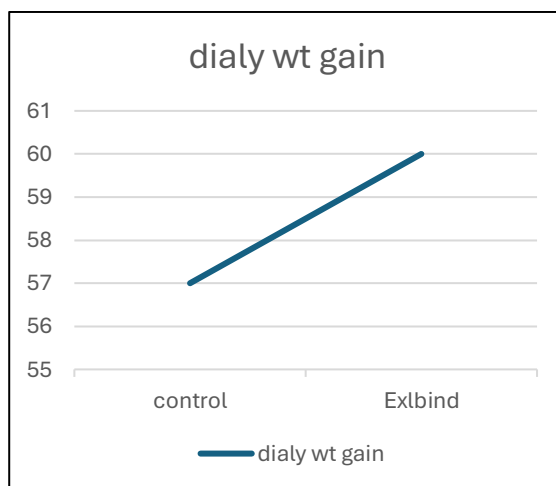

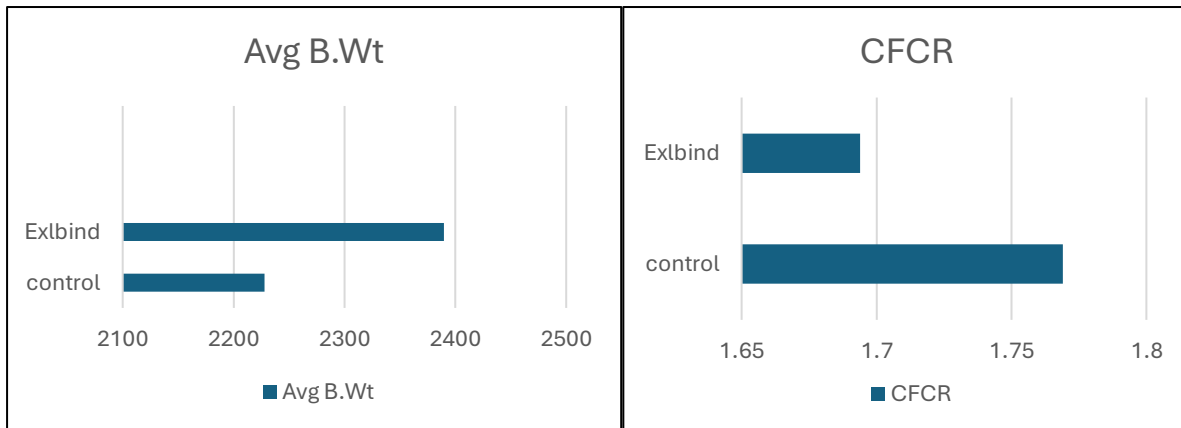

Exlbind
Binding in excess
ExL Bind is designed innovatively to bind in excess the mycotoxins.

Composition

- Oxine copper
- Organic acids
- Oxyfumarate
- Cyclodextrin
- Polyphenols
- Andrographolides
- Choline chloride
- Quarternised bentonite

Helps to realise genetic potentiality of birds

Advanced Growth & Metabolic Support Formula

- High Concentration of First & Second Limiting Amino Acids**
Methionine (MHA) & Lysine for Optimal Protein Synthesis & Growth
- Choline**
Methionine Donor & Lipotropic Agent
- Bioavailable Minerals**
Essential for Bone Health & Growth
- Fortified with B-Complex Vitamins**
Supports Bioenzyme Activity & Metabolic Function
- Creatinine Precursors**
Boosts Cellular Energy & Performance
